

CAPABILITIES

Ivey Engineering Inc. performs forensic engineering, building system design, testing and analysis, and provides expert witness testimony. The firm specializes in the following:

- HVAC Systems
- Plumbing Systems
- Fire Protection Systems
- Smoke Migration Assessment
- Carbon Monoxide Analysis
- Refrigeration Systems
- Construction Cost Estimating
- Building Code Analysis

We do not charge our clients for airfare on most engagements.

Ivey Engineering (IEI) was founded in 1994. IEI is nationally recognized and has provided expert consulting services across the U.S. and Canada. The technical staff is comprised of professional engineers with multiple state licenses and construction experts. Our clients include law firms, insurance companies, building owners, HOAs, developers, contractors, architects, engineers, and facility managers. We are retained nearly equally by plaintiffs and defendants and have been retained to assist in resolution or testify in over 1,000 disputes and legal matters. We are high-rise specialists. Our experience includes the following types of types of litigation:

- Product Liability
- Construction Defect
- Insurance Defense
- Patent Infringement
- Subrogation
- Personal Injuries
- Construction Claims
- Design Errors & Omissions
- Casualty Loss

IEI provides consulting for residential, commercial, institutional, industrial, educational, health care, and governmental facilities. Brief profiles of staff members can be found on our website, www.iveyengineering.com. CV's and fee schedules are available upon request.
