We do not bill for airfare or travel time while traveling by air.

Ivey Engineering (IEI) was founded in 1994. IEI is nationally recognized and has provided expert consulting services in every region of the U.S. and Canada. The technical staff is comprised of professional engineers with multiple state licenses and construction experts. Our clients include law firms, insurance companies, building owners, homeowners associations, developers, contractors, architects, engineers, and facility managers. We are retained nearly equally by plaintiffs and defendants and have been retained to assist in resolution or testify in over 1,000 disputes and legal matters. Our experience includes the following types of litigation:

- Product Liability
- Construction Defect
- Insurance Defense
- Patent Infringement
- Subrogation
- Personal Injuries
- Construction Claims
- Design Errors & Omissions
- Casualty Loss

IEI provides consulting for residential, commercial, institutional, industrial, educational, health care, and governmental facilities. Brief profiles of staff members can be found on our website, www.iveyengineering.com. CVs and fee schedules are available upon request.
