

ERNEST P. CHIODO MD JD MPH MS MBA CIH

Dr. Chiodo has a Medical Degree (M.D.) from Wayne State University School of Medicine, a Juris Doctor (J.D.) from Wayne State University, a Master of Public Health (M.P.H.) from Harvard University School of Public Health, a Master of Science in Biomedical Engineering from Wayne State University, a Master of Science in Threat Response Management (biological, chemical, and radiological defense) from the University of Chicago, a Master of Science in Occupational and Environmental Health Sciences with Specialization in Industrial Toxicology from Wayne State University, a Master of Business Administration with a concentration in Economics from the University of Chicago, and a Master of Science in Evidence-Based Health Care (evidence based medicine) from the University of Oxford in the United Kingdom.

Dr. Chiodo has been inducted into the Engineering Hall of Fame of Wayne State University College of Engineering as a Distinguished Biomedical Engineer.

Dr. Chiodo has been elected to full membership in the Society of Toxicology.

Dr. Chiodo is board certified in the medical specialties of Internal Medicine, Occupational Medicine, and Public Health and General Preventive Medicine. Occupational Medicine is the medical specialty most focused upon determining whether or not a work or environmental exposure caused disease or death of an individual. Public Health and General Preventive medicine is the epidemiological and biostatistical specialty within medicine. Physicians that are board certified in Public Health and General Preventive Medicine are the type of physicians that serve as the United States Centers for Disease Control and Prevention (CDC) “**Hot Zone**” physicians or as medical directors of a major city or state health department. Dr. Chiodo is also certified in the engineering and public health discipline of industrial hygiene by the American Board of Industrial Hygiene as a Certified Industrial Hygienist (C.I.H.). Industrial hygiene is the discipline involved in quantifying and controlling occupational and environmental hazards. Dr. Chiodo is a past president of the Michigan Industrial Hygiene Society which was the first industrial hygiene organization in the United States. He served for many years as an assistant clinical professor of internal medicine, family medicine, and public health at Wayne State University School of Medicine. He has also served as the Medical Director and Manager of Medical and Public Health Services for the City of Detroit and was the chief physician responsible for measures designed to protect the public health of over one million persons living or working in the City of Detroit at the time of his service. His service as Medical Director of the City of Detroit was a position of substantial public responsibility. In this position he had the direct telephone number of the United States White House so that he could contact the President (Bill Clinton at the time) if there was a serious public health emergency in Detroit. He is licensed to practice medicine in Michigan, Illinois, Florida, and New York.

Dr. Chiodo is licensed to practice law in Michigan and Illinois. He has served on the Environmental Law Council of the State Bar of Michigan. He has also served as the Chairman of the Environmental Litigation and Administrative Practice committee of the State Bar of Michigan. He has served as an adjunct professor of law at John Marshall law School and Loyola University Law School where he taught toxic tort law.
