RAISING THE STANDARD CONSULTING (USA & CANADA) OWNER & PRESIDENT (1999-PRESENT)

Manage all aspects of leadership, program development, training, strategic planning and quality control for this vibrant Safety & Health Consulting Firm. The firm has a core of seasoned professionals and associate consultants across Canada and the United States. I have been involved in projects with a wide range of industries including, mining, healthcare, manufacturing, construction, pharmaceutical, and Federal with activities including:

- ♣ Develop and deliver government approved certification training for safety representatives.
- ♣ Provide accident investigation and regulatory citation assistance.
- ♣ Provide on-site Site Safety and Health Officer (SSHO) coverage on Federal, State, Provincial and private construction projects.
- ♣ Responsible for the development and implementation of services for clients including training programs, safety programs, assessments, trending, ethics and gap analysis.
- ♣ Anticipate, identify and evaluate hazardous conditions and practices. Develop hazard control designs, methods, procedures and programs. Implement, administer and advise others on hazard controls and hazard control programs.
- ♣ Measure, audit and evaluate the effectiveness of hazard controls and hazard control programs.
- ♣ Provide training and multi-site safety management coverage.
- ♣ Contracts consisted of all phases of construction and involved trenching, crane safety, rigging, steel erection, electrical, mechanical, lockout, scaffold, fall protection, confined space, etc.
