PROFESSIONAL SUMMARY

In summary, my practice is tailored to provide comprehensive surgical & wound care at post-acute care facilities (nursing homes, assisted living facilities, home care) while optimizing quality improvement & ensuring compliance with state & national regulations. Interprofessional nursing home in-services are provided with a systematic & structural approach addressing the post-acute care skin & wound care program; tailoring objectives to unique facility needs. Furthermore, it is my passion to contribute to post-acute care & geriatric surgical research, education, innovation, & policy. Thus, supporting community focused healthcare initiatives while improving industry standards & protocols.
